**DETAILED ACTION**

Claims 1 – 24 are pending in this application.

***Status of the Claims***

The scope of the elected invention, described in the Office Action mailed on March 10, has been modified as follows:

Compounds of formula I,

wherein:

Y is independently represent CH<sub>2</sub>, (CH<sub>2</sub>)<sub>2</sub> or CH=CH; R<sub>x</sub> is structural fragment

; A, D and E each independently represent CH or CH<sub>2</sub>; X<sub>1</sub> represents C<sub>2-3</sub>

alkylene; R<sub>y</sub> represents H or C<sub>1-4</sub> alkyl; B is structural fragment

or

; X<sup>5</sup>, X<sup>6</sup>, X<sup>7</sup> and X<sup>8</sup> each independently represent CH; R<sup>1a</sup>, R<sup>1b</sup>, R<sup>1c</sup> and R<sup>1d</sup> are as

defined; R<sup>1</sup>-R<sup>30</sup> are as defined except the none of them represent a six-membered heterocyclic group with more than one heteroatom; D<sup>1</sup> and D<sup>2</sup> are as claimed;

Art Unit: 1626

As a result of the election and the corresponding compounds identified supra, the remaining subject matter of claims 1-24 as stated previously (in Office Actions mailed March 10, 2003) are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions.

***Request for reconsideration of Restriction Requirement***

Applicant's request for reconsideration of the restriction requirement has been considered but is not found persuasive. Applicants argue that the examiner recasting of the claims to the scope of the elected invention improperly limits the scope of Applicants claims. However, the scope of the elected invention does not improperly limit the scope of Applicants claims. The compounds, which are withdrawn from consideration as being non elected subject matter, differ materially in structure and composition from the compounds of the elected invention. The withdrawn compounds contain varying functional groups which differ from those of the elected invention such as tetrazine, triazine, diazine, morpholine, thiazine, oxazole, thiazole, triazole, group etc. This recognized chemical diversity of the functional groups can be seen by various classification of these functional groups in the US classification system i.e. class 544 subclass 106+ (morpholine), class 544 subclass 3+ (thiazine), class 548 subclass 255+ (triazoles) seven-membered ring with one Nitrogen as hetero atom, class 540 subclass 450+ etc. Therefore, the compounds, which are withdrawn from consideration as being for non elected subject matter, differ materially in structure and composition and have been restricted properly as a reference, which anticipated, but the elected subject matter would not even render obvious the non-elected subject matter.

Art Unit: 1626

**Applicant's claim involves more than one independent or distinct invention** . Under 35 U.S.C. 121, the claims may be restricted and the examination limited to the restricted invention. Accordingly, restriction as has been presented in this application is proper. The requirement to restrict is repeated and made Final.

### ***Objections***

Claims 1-24 are objected to for containing non-elected subject matter. Claims 1-24 presented solely to the elected invention as identified supra, would appear allowable over the prior art of record.

Therefore **THIS ACTION IS MADE FINAL** . Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136 (a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
